U.S. Patent and Trademark Office PTOL-326 (Rev. 04-01) Application/Control Number: 09/919170

Art Unit: 1761

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-6, drawn to an apparatus for concentrating a vegetable-fruit product, classified in class 99, subclass 502.
- Claims 7-16, drawn to a method of concentrating a vegetable-fruit product, classified in class 426, subclass 492.
- Inventions are distinct, each from the other because of the following reasons:

 Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus may be used a non-food fermentation broth or to separate extracts used in pharmeceuticals.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 703-308-3846. The examiner can normally be reached on Monday-Friday.
